- 5/28 No School
- 5/29-6/5 POL Prep Week
- 6/6-13 POL Days
- 6/14 Last Day of School

This month in Physics...

I cannot believe that that school year is almost over!!

We will finish up our studies of Electricity with a project which will require you to create a circuit plan for a house. In groups, you will make a model of a house with fully functioning.

You will get a week of POL prep before you final POLs will begin. This semester, all POLs will be connected through a common theme. You will still be completing a unique POL based on your lowest ESK.

The Physical Fitness Test is on Thursday, May 17 and is **MANDATORY** for all 9th grade students in the state of California to take. You will need to bring running shoes and comfortable clothes.

Scientists of the Month!

Period 1/3 **Emely Pineda**

Period 9/11 **Joel Bonilla**

Period 6/8 **Valeria Rodriguez**

Period 10/12 **Daniela Parra**

Parents!!!

Please make sure to check your students grade on PowerSchool on a regular basis as we near the end of the year!
