

# NOVEMBER

## Upcoming Events

- 11/8-9 Last day of Seminar
- 11/10 Veteran's Day
- 11/16 Exhibition 6-8pm
- 11/18-26 Thanksgiving Break
- 12/2 **Makerfaire  
DTLA Library  
10am-4pm**

## What is Exhibition?

Exhibition is a night for students to show off what they have learned during their interdisciplinary project this semester. Students have been studying empathy through the lens of the diversity within the school. As a final product, the students will create a kinetic art piece that can evoke empathy about injustices experienced by people during the civil rights movement.

**DTLA Makerfaire**  
dtla.makerfaire.com

**Office Hours**  
Tuesdays 4-5pm  
Thursdays 8-9am

## This Month in Physics...

This month students will be continuing their study about gears. The students will be finishing their kinetic art piece for Exhibition night. Students are expected to be at school from 6pm-8pm and will be responsible for presenting or leading a group during different periods of time. Students must be in professional clothing for the entirety of Exhibition.

The students have an amazing opportunity to share their projects with the world. The DTLA Makerfaire is on December 2, 2017. We are encouraging all students attend for any amount of time. They can present their project and also explore the faire for a great learning opportunity. Students can get service hours for attending.

Continue to look out for updates with the new building and the new expectations for students on this

## Scientists of the Month!!

Period 1/3- **Keaton Click**

Period 9/11- **Fernanda Iniguez**

Period 6/8- **Camille Medrano**

Period 10/12- **Kian Surtarwala**
